Atlantic cod has a fresh and mild umami flavour with a slight sweetness to the firm, juicy meat. Thanks to the cod's upbringing in the ice-cold and clean waters around Greenland, the meat is very white and the flavour fully developed. It flakes nicely when cooked and with its high protein and low fat it offers a healthy and nutritious meal.

The loin is cut from the dorsal part of the fillet, which is also the thickest and leanest part. Loins from the Atlantic cod are uniform in size and shape, making them ideal for portion-servings or buffets.

INGREDIENTS

Cod loins (fish). Water (protective glaze)
