

Crispy and Delicious

# COLD-WATER PRAWNS IN CRISPY BREADING

Prepare from frozen  
in oven, deep fryer or air fryer

## Cold-water prawns in crispy breading

Juicy cold-water prawns in a new, light and crispy breading – simply irresistible!

The prawns are developed so they can be prepared from frozen condition and directly in the oven, deep fryer or air fryer in a few minutes.

The prawns are ideal for a snack with a side of greens, an appetizer, as salad topping or as a main course with a side of French fries and greens.

- **Save time and avoid waste:** Prepare only the needed amount directly from frozen – store the rest
- **Easy to handle:** The product is based on already cooked ingredients and is safe to consume after heating
- **MSC certified:** The prawns come from a certified sustainable fishery
- **Clean Label:** Well-known, everyday natural ingredients used in a typical private household kitchen. No artificial colourings, flavourings or preservatives, normally described as E-numbers and no genetically modified organisms (GMO)
- **Delicious:** Crispy on the outside – succulent and tasty on the inside... yum!
