These wild caught cold-water prawns are a delicacy, with their pink colour and firm, juicy texture. From their origin in the ice-cold and clear waters of the North Atlantic and Arctic Oceans, the cold-water prawns grow slowly until reaching full size at 6 years. Due to the slow growth flavours and texture are given time to fully develop. The prawns are high in protein and low in fat, making them a healthy choice.

The single frozen cold-water prawns are caught inshore close to our processing facilities, where they are peeled and cooked in a continuous process to preserve the delicate taste and texture. They are individually quick-frozen to make portioning easy directly from the freezer. Gentle thawing in the refrigerator preserves the natural flavours best.

INGREDIENTS

Shrimp (**crustaceans**), salt. Water (protective glaze)

SERVING

The cold-water shrimp are uniform in size with a consistent quality. Their fresh taste is ideally complimented by mild, fatty or acidic flavors. The shrimp lend themselves well to cold dishes including salads, sandwiches and appetizers or as toppings.

Species	Pandalus borealis
Item number	105257024
Net weight incl. glaze	1.7 lbs
Net weight excl. glaze	1.5 lbs
Glaze (%)	10 - 12
Shelflife (days)	540
Storage	Frozen
MSC certificate no.	MSC-C-54912

ALLERGENS

Crustaceans
