Plaice is known for its very flavorsome and white meat with an almost creamy texture. It is low in fat, high in protein and a great source of vitamin B12 and selenium.

Breaded plaice fillets offer a rapid, tasty and easy way to cook and serve fish that is very simple to use as part of a recipe or as an individual menu item on a buffet. They are ovenable straight from the freezer.

## INGREDIENTS

Plaice fillet (**fish**) (60%), breading (40%): water, **wheat** flour, rapeseed oil, potato starch, salt, yeast, sugar, **wheat** gluten. Pre-fried in rapeseed oil. A few bones may remain.

## SERVING

The fresh and slightly sweet aromas of plaice are well accompanied by savory flavors. Plaice is very versatile and the thin fillets are well suited for fast and easy cooking, while still maintaining their natural flavors.

## COOKING INSTRUCTIONS

Prepare from frozen. Oven: Cook in pre-heated oven approx. 15 minutes at 220°C.
