Cold-water prawns are a true delicacy, with their bright-pink colour and firm, juicy texture. From their origin in the ice-cold and clear waters surrounding Greenland, the cold-water prawns grow slowly until reaching full size at 6 years. Due to the slow growth flavours and texture are given time to fully develop. The sweet and savoury flavours combined with a juicy bite offer a full flavour experience. The prawns are high in protein and low in fat, making them a healthy choice.

Shell-on cold-water prawns are cooked and frozen at sea within 3 hours from catch. The fast processing locks in the natural flavour and the crisp, moist texture. Gentle thawing in the refrigerator best preserves the ultimate freshness of the prawns.

### INGREDIENTS

Prawns (**crustaceans**) (*Pandalus borealis*), salt, water (protective glaze). May contain traces of fish.

### SERVING

The cold-water prawns are uniform in size with a consistent quality. Their fresh taste is ideally complimented by mild, fatty or acidic flavours. The prawns lend themselves well to cold dishes including salads, sandwiches and appetizers or as toppings.

### COOKING INSTRUCTIONS

Peel and eat after defrosting in refrigerator.
