- Attractive brand design that stands out in the freezer

## ON PACK DESCRIPTION

The Disko Bay, right by the UNESCO world heritage protected icefjord and the town Ilulissat in Greenland, is home to prawns of a very fine quality. The prawns in and around the Disko Bay grow extremely slowly in the ice-cold water. For this reason they are 6-7 years of age before they are fully grown. The slow growth results in a pleasant firm consistency and remarkably sweet flavour.

## INGREDIENTS

Prawns (**crustaceans**), water, sea salt, acidity regulators (E330, E262), preservatives (E211, E202), stabilisers (E415, E410).

## CATCHING GEAR

Trawls

## CATCHING AREA
