Halibut heads - J-cut

Frozen at sea

Greenland Halibut (*Rheinhardtius hippoglossoides*) is caught in the ice-filled waters in North-west Greenland. Greenland halibut is rich in omega-3 and range among the world's finest edible fish due to its snow-white meat, delicate flavor and soft, uniform consistency.

Heads from Greenland Halibut are J-cut from filet. The heads are equal in size, cut in a uniform way by machine and fresh blockfrozen at sea. Each block is packed in protective carton ideal for transportation.

Ingredients:

Halibut (*Reinhardtius hippoglossoides*)
FAO 21 and FAO27

Language:

UK, DK, CHN

Packaging

34 cartons per US pallet:

121 860 460 - 1 x 22 kg per carton
121 860 463 - 2 x 12 kg per carton
121 860 560 - 1 x 22 kg per carton
